

Piaggio & C. S.p.A.

Explanatory Memorandum

Proposal to cancel 3,054,736 portfolio treasury shares; resulting changes to article 5.1 of the Articles of Association. Related and consequent resolutions.

Dear Shareholders,

we submit for your approval the proposal to proceed with the cancellation of 3,054,736 treasury shares held in the portfolio of Piaggio & C. S.p.A. (“**Piaggio**” or also the “**Company**”).

In this regard, we recall that, at the date of this Report, the Company holds a total of. 3,054,736 treasury shares, equal to 0.846% of the share capital, acquired on the basis of the authorisations granted under Article 2357 of the Civil Code and Article 132 of Legislative Decree no. 58/1998 (“**Consolidated Law on Finance**”) by the Shareholders' Meeting, as per latest approval, with the resolution of 14 April 2016 and posted in the financial statements at an average value of 1,8483 euros.

Taking into account, moreover, that Piaggio outstanding shares are without par value, it is proposed to proceed with the cancellation 3,054,736 treasury shares, with no reduction in the value of share capital (currently 207,613,944.37 euros divided into 361,208,380 shares), and reduction of the corresponding negative reserve posted in the financial statements for 5,646,053.19 euros, through the use of the IFRS transition reserve.

Given there is no longer any need to maintain a substantial amount of treasury shares and also given the authorisation to purchase and sell treasury shares approved by the Shareholders' Meeting on 14 April 2016, which provided for the purchase of treasury shares, also with a view to their subsequent cancellation, it is considered preferable to proceed with cancellation of said treasury shares, thereby increasing the value of each share and maximising their profitability. The cancellation of shares allows, in fact, the portion of the profit allocated to each share (“*earnings per share*”) to be increased.

Following this cancellation, the share capital of Piaggio will not be reduced. The share capital will therefore remain unchanged and equal to 207,613,944.37 euros but the accounting par value of the remaining 358,153,644 outstanding shares will increase to 0.5797 euros.

It is pointed out that this proposed resolution does not give rise to the right of withdrawal pursuant to legislation.

The cancellation of 3,054,736 treasury shares will result in the modification of the numerical expression of the number of outstanding shares in article 5.1 of the Articles of Association as indicated below (the remaining provisions of the Articles of Association contained in Article 5 remaining unchanged, which are therefore omitted):
